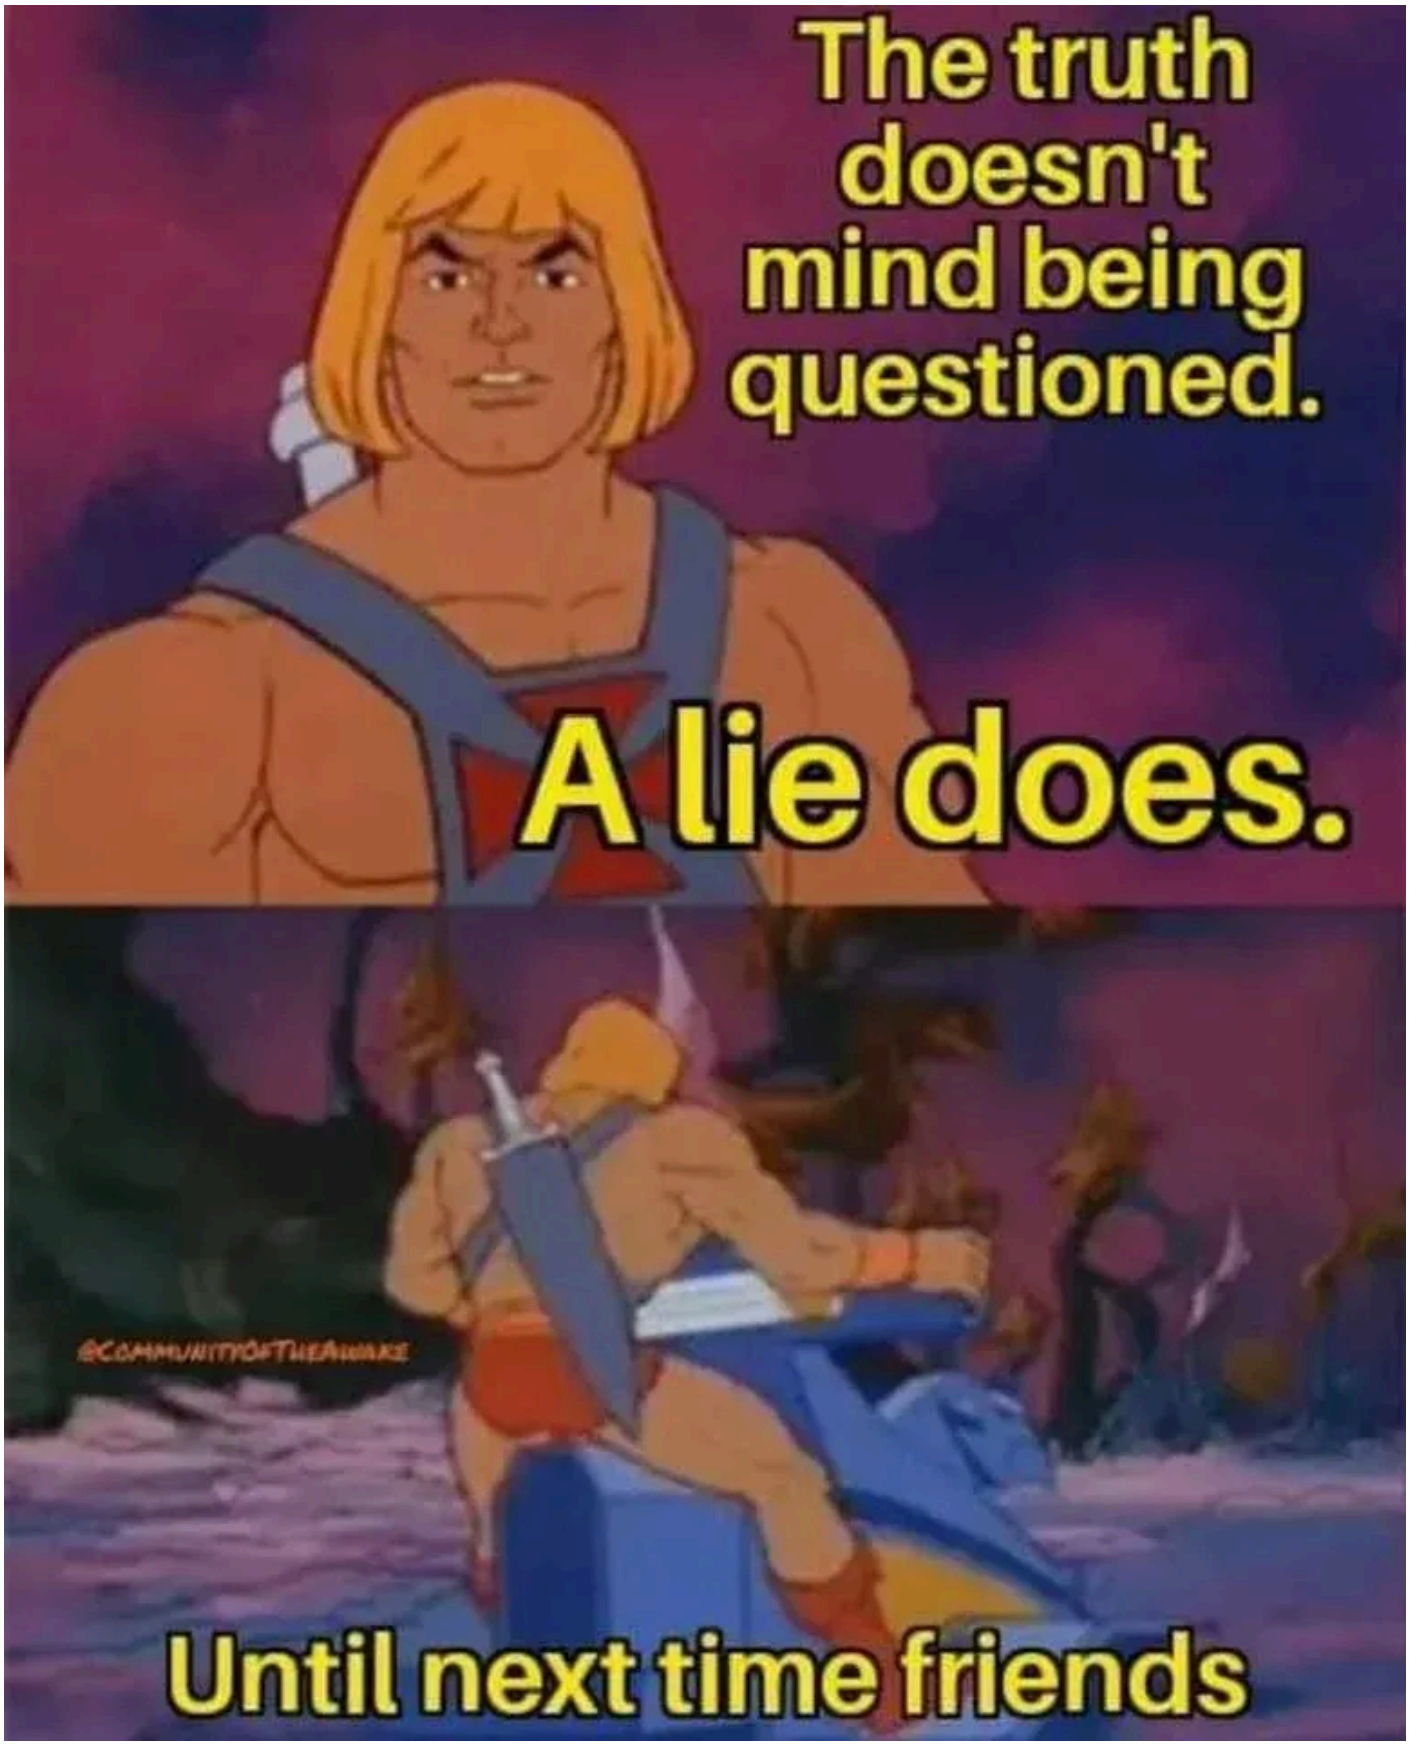
To be clear, speaking the truth as independent journalist is not hate. It is reporting the truth. Around the world our governments are trying to lock up anyone who is speaking

the truth, calling it "disinformation" and its escalated psy-op friend "hate" speech.

The truth is not afraid to debate. A lie is.



The truth doesn't mind being questioned.
A lie does.
Until next time friends

Tyrants are afraid of the truth getting out so they work to silence their stated number one threat.

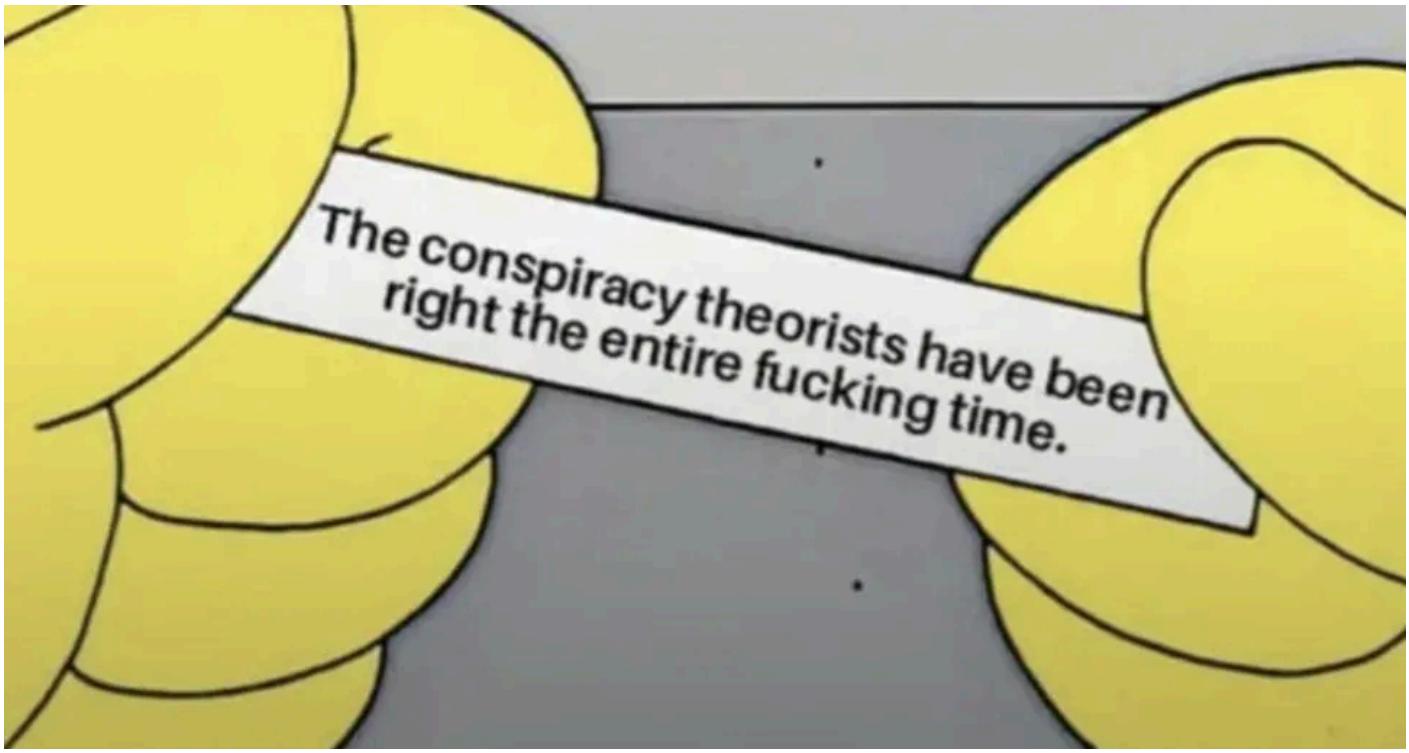
For the record, we do not hate any specific race or group of people. We do not promote any type of hate.

We report the truth, and we also have zero tolerance for bullshit; that is not hate.

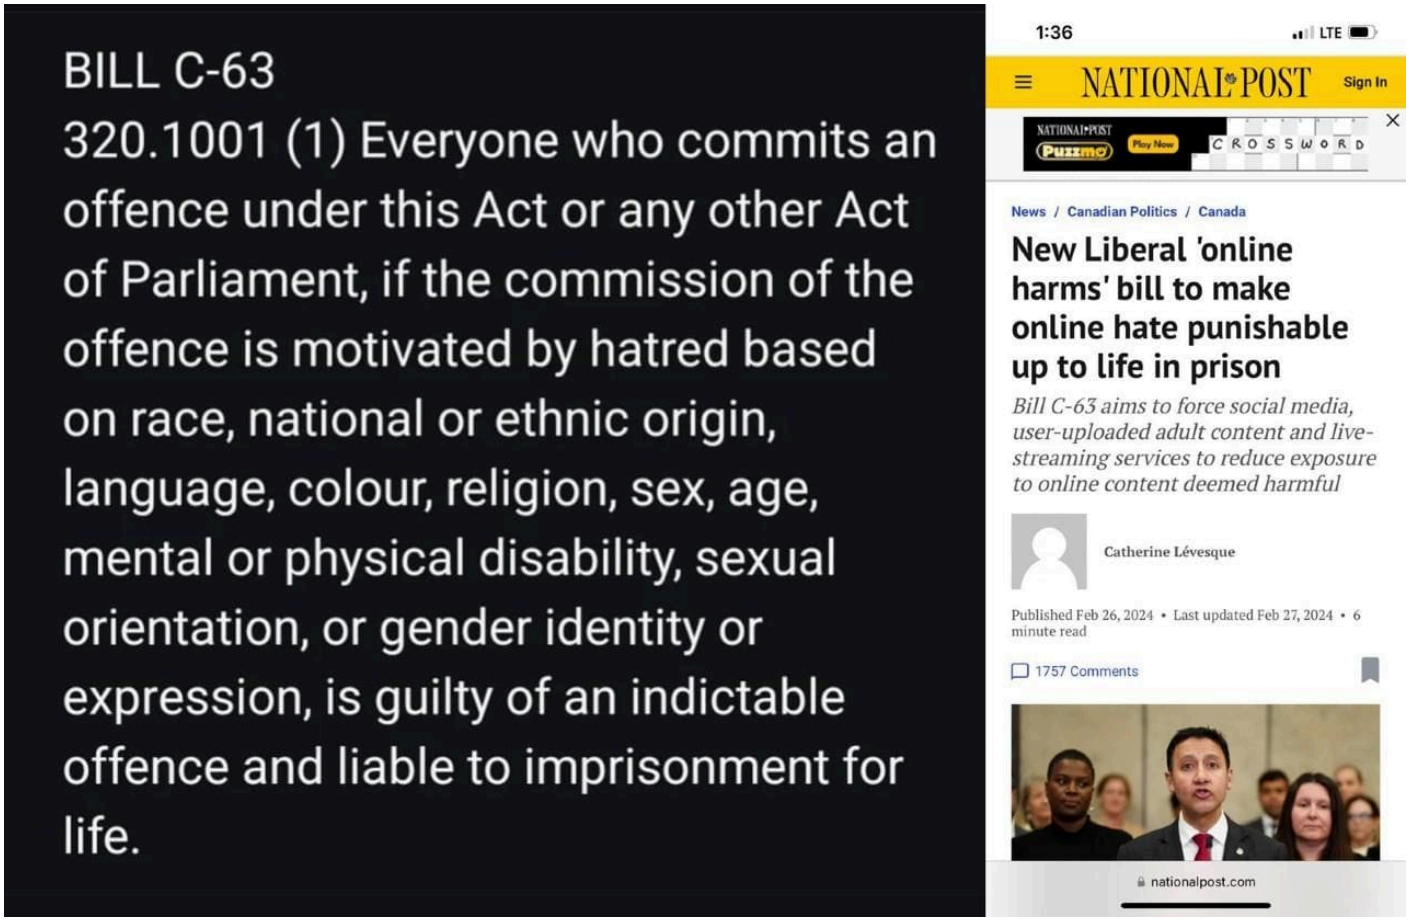
No quarter for those who violate the natural law, who hurt kids, who wage wars, who are part of the depopulation agenda, who are part of the genocidal vaccine campaign that has murdered millions; is not hate.

Stating that genocide and murder are not ok; is not hate.

The truth is not hate.



Laws that throw anyone in jail for speaking the truth, aka anything against the narrative, and pathetically calling it "hate" speech; **are simply trying to suppress the truth and therefore are void of all authority.**



Laws that violate our constitutions are void of all authority.

DO NOT CONSENT
